Chapter 1 Interface connection

Front panel:

ON I OFF	Video Processor		
1		23456789	

No.	Interface Description
1	Power switch button
2	Infrared remote control receiver
3	Brightness increases / Play the next program file in the U-disk
4	Brightness decreases / Play the previous program file in the U-disk

5	HDMI 1 Signal selection button / Pause or play the program in the U-disk
6	HDMI 2 Signal selection button / Stop the program in the U-disk
7	USB Content playback selection button
8	Partial or Full-screen toggle button
9	Screen one-key Pause / Video and image switching playback

Rear Panel:

No.	Interface Description
1	Gigabit Ethernet port
	Transmission speed 1Gbps, used for cascading receiving cards, transmitting RGB data stream
2	USB2.0 input interface
	Support insert U disk to play video, picture

www.huidu.cn 3

	Video file formats: mp4, avi, mpg, mkv, mov, vob and rmvb.
	Video encoding: MPEG4 (MP4), MPEG_SD/HD, H.264 (AVI, MKV), FLV.
	Image file formats: jpg, jpeg, png and bmp
	HDMI 1 and HDMI 2 input interface
2	Interface form: HDMI-A
5	Signal standard: HDMI 1.3 backward compatible
	Resolution: VESA standard, \leq 1920 $ imes$ 1080p@60Hz
Л	TRS 3.5mm dual channel audio output port
4	Connect audio power amplifier for high-power audio external amplifier
F	USB-B interface
Э	Connect the computer for debugging the parameters of the receiving card, program upgrade, etc.
6	AC input interface 110V~240V 50/60Hz

1.2 Hardware connection

Chapter 2 HDSet installation

Please download the installation package of HDSet software from Huidu's official website www.huidu.cn, and complete the installation according to the diagrams below:

1.Run the software package, then select language for installer. Click [OK] to go on.

2.After selecting a language, an installation wizard like below will appear.Click [Next].

Choose the installation location, click [Browse] to change the default target location, then click [Install] after

completing;

After the installation is complete, you are ready to use HDSet.

Chapter 3 HD-VP210C Parameter settings

3.1 Connection

Connect the VP210C to the computer by USB-B type cable.

- 3.2 Basic Setting
- 3.2.1 Screen Configuration
- 1.Run HDset software, then select device and process, click [Screen Configuration].
